LENGTH:	<b>3.30 INCHES (8.38 CENTIMETERS)</b>
WEIGHT:	<b>3.82 OUNCES (108.30 GRAMS)</b>
COLORS:	<b>COYOTE, BLACK</b>
WARRANTY:	<b>LIMITED LIFETIME WARRANTY</b>

The **Streamlight TLR-VIR II** is a low-profile, weapon mounted tactical light with integrated IR LED Illuminator/Laser and visible White LED Illuminator. The user transitions from white light to IR without having to remove eyes from the target or alter their controlled firing grip. IR requires night vision goggles. The deep-dish parabolic reflector produces a concentrated beam with optimum peripheral illumination. The Windage and Elevation adjustment screws provide tactical indication for mode switch being set to IR position. The one handed snap-on and tighten interface keeps hands away from muzzle when attaching/detaching. The TLR VIR II securely fits M17/M18 pistols and all long guns with MIL-STD-1913 rails and features a one handed snap-on and tighten interface that keeps hands away from muzzle when attaching/detaching. The TLR-VIR II is available in Black and Coyote.
